

Romain Voide

Member of the Board

During his studies at ETH Zurich and Harvard Medical School, Geneva-born Romain has obtained a diploma as mechanical engineer and a Ph.D. doctoral degree. He then served as research assistant at the Institute for Biomedical Engineering at ETHZ, before entering the corporate world. From 2007 to 2014, he held various responsibilities with McKinsey and Takeda Pharmaceuticals.

In 2015, Romain joined Alexion, a global biopharmaceutical company focused on serving patients, affected by rare diseases, through life-changing therapies. He served several years as General Manager for the Swiss and Austrian affiliates and is now based in Munich, Germany, where he leads the Marketing team and oversees product launches and sales & brand activities. Romain Voide is co-founder of ESM AG and a member of the Board of Directors.
